HEAT PRESS TECHNOLOGY

# Alpha Mk. 6

**Designed for the application of transfers** to all types of fabric on a trully industrial scale.

**The Alpha Mk. 6 Press** is a pneumatically operated heat press for printing garment panels and similar larger items. This robust machine is powered by a micro-processor for control of both heat and dwell accuracy and ease of operation and requires minimal operating space, it also features an automatic release system at the end of the pressing cycle.

**The print area of the Alpha Mk. 6 Press** is 137 x 76 cms (54 x 30 ins).

**The Alpha Mk. 6 Press** features an easy slide base table with a special absorbent pad and cover for even transfer application.

## Specifications

Power Consumption	7500 Watts
Power Supply	3 Phase (Neutral + Earth) 380-440 Volts AC
Working temperature	50-250°C
Display Timer Range	0 - 9.59 mins
Machine height	147 cms
Machine width	175 cms
Machine depth	96 cms
Work area required	186 x 175 x 147 cms
Weight export packed	690 kg
Size export packed	190(L) x 103(W) x 158 cms(H)
Net weight	510 kg
Press pad dimensions	137 x 76 cms
Fuses	20 A
A-weighted noise level	<70 dB(A)
