HEAT PRESS TECHNOLOGY

Omega 500

The **OMEGA 500 Twin Table pneumatic press** has been specially designed for companies requiring a quality machine to give increased production levels.

Twin Table operation enables the operator to load one table while the other is in the transfer position.

Safety features control the use of the machine, both operating buttons have to be pressed simultaneously to lower the heat plate and it will not operate until the heat plate is correctly above the table.

Other benefits include user comfort and ease of operation, while maintaining consistent pressure control making it ideal for medium volume production.

Digital microprocessor controller for time and temperature accuracy.

High Efficiency, Silent air compressor can be supplied on request.

The work areas of the OMEGA 500 is 21 x 34 cms (8.25 x 13.3 ins) but machines may have, to special order, optional smaller sized interchangeable worktables.

Specifications

Power Consumption	1500 Watts
Power Supply	230-240 Volts AC
Compressed air supply	7 bar max
Working temperature	70-235°C
Display Timer Range	0 - 9.59 mins
Machine height open	49 cms
Machine width	85 cms
Weight export packed	71 kg
Size export packed	94(L) x 65(W) x 65 cms(H)
Machine depth	61 cms
Net weight	45 kg
Press pad dimensions (x2)	21 x 34 cms
Fuses	8 A
